

Exclusive BackSmart features

help you focus on what matters most.

a Adjustable Footrests and Calf Supports

The LD304's length-adjustable footrests and calf supports offer nearly infinite positioning for customized comfort and slide into place with an easy-squeeze handle.

b Lock-Rite Foot Section

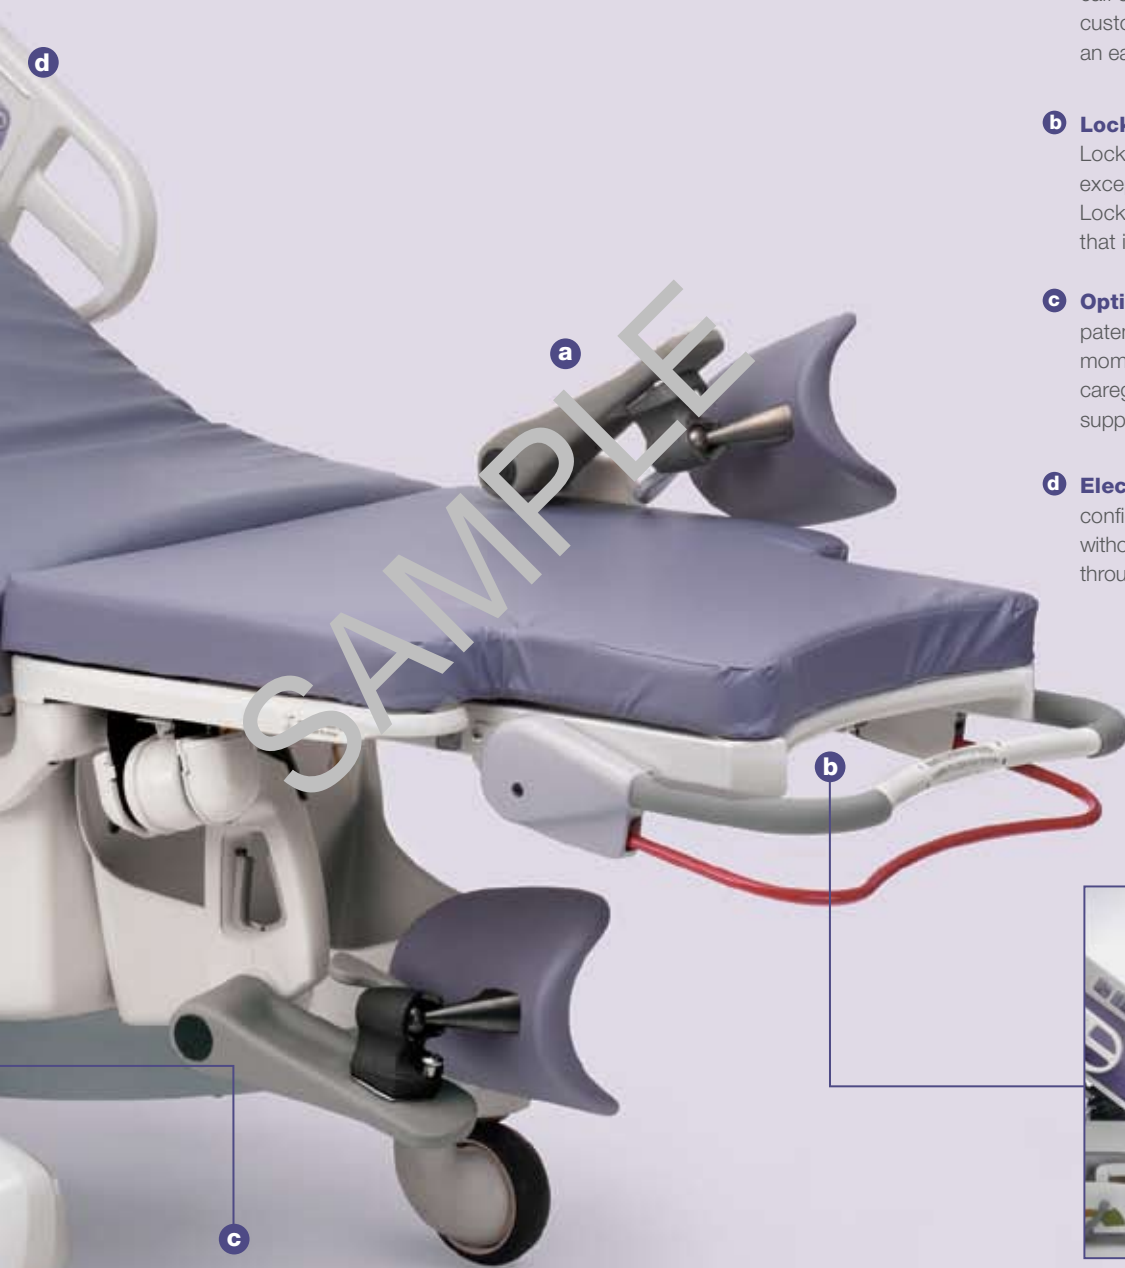

Stryker's removable Lock-Rite foot section is simple, safe and exceptionally easy to handle. Our exclusive Lock-Rite design features visual confirmation that it is securely locked into place.

c Optional Skoocher System

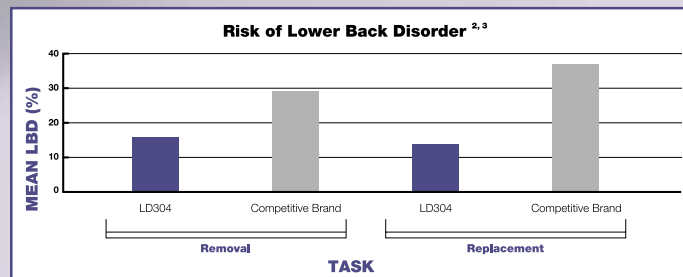

Stryker's patented powered Skoocher system moves mom closer to the perineal edge, reducing caregiver strain and providing proper back support for mom.

d Electric Trendelenburg

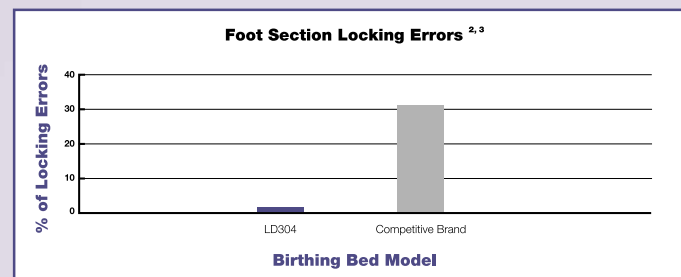

The LD304 is easily configured into the Trendelenburg position without strenuous lifting, bending or assistance through electric, one-touch adjustment.

Lock-Rite Foot Section

Stryker's patented Lock-Rite foot section reduces the risk of lower back disorder by up to 63 percent.

Stryker's exclusive Lock-Rite foot section provides visual confirmation that it is properly secured, virtually eliminating locking errors.

LD304 Birthing Bed

The BackSmart™ Solution
for Positioning Mom

The Stryker LD304 birthing bed allows you to position the bed to mom.
Now that's BackSmart.™

Today's labor and delivery needs have grown more challenging.

With increasing patient weights, routine epidurals, older moms and various birthing options, come more complex labor and delivery needs. The result? **Greater physical demands on you.** At the same time, moms are more informed than ever before and expect the best possible birthing experience with superior safety, comfort and control.

Stryker's BackSmart design offers a solution. With nearly infinite positioning capabilities for assisting moms throughout labor and delivery, **Stryker's LD304 dramatically reduces or eliminates positions that strain your back.** Now that's BackSmart.

Our exclusive, length-adjustable footrests and calf supports, Lock-Rite® foot section, patented Skoocher®, and electric Trendelenburg help get mom comfortable and enhance caregiving while, at the same time, protecting your back. Combined with Stryker's best-in-class clinical capabilities, the LD304 frees you to focus on what matters most — helping bring healthy little ones into the world.

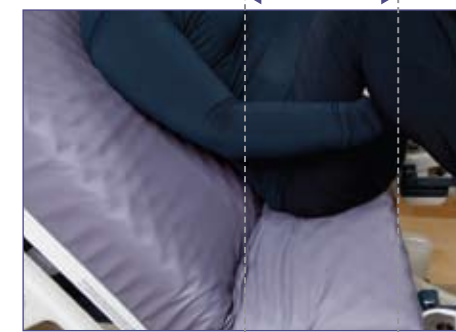

Key BackSmart Feature
 One-touch electric Trendelenburg

Key BackSmart Feature

Key BackSmart Feature
 Patented Skoocher

Five-Inch Thick Foam Mattress
 The LD304's ultra-comfort five-inch memory foam mattress, with integrated egg crate top, supports mom throughout the varying stages of labor and delivery.

Skoocher System
 Skoocher is a powered system that shifts the perineal edge of the LD304 toward the caregiver with the touch of a button.

Length-adjustable Footrests and Calf Supports
 The LD304 offers fast, easy repositioning of the footrests and calf supports. With the easy-squeeze handle, the supports can be positioned for optimum comfort for patients of virtually any size and leg length.

Healthcare workers are **4.5 times** more likely to **sustain back injuries** due to **overexertion** than any other type of worker.¹

Women's Services by Stryker

Maternity Suite Furnishings Create a comfortable, home-like environment for mom and baby with Stryker's functional maternity suite. Available in custom colors and styles, our dual-duty pieces allow you to create a distinct look and feel that best suits your facility and fully supports clinical functions at the same time.

Cub® Pediatric Crib The Stryker Cub Pediatric Crib offers unsurpassed safety for your smallest of patients with special safeguards like low-impact siderails with thinner, wider slats and an optional protective top.

Post Partum Care Ideally suited for post-partum care, Stryker's med/surg beds offer many customizable features that make them appropriate for recovering moms. Combined with Stryker's versatile room furnishings, you can easily create a healing, home-like environment for mom and her family.

Trio® Mobile Platform Equipped for pre-op through post-op, Stryker's versatile Trio Mobile Platform eliminates transfers, making patients more comfortable, while increasing efficiencies and reducing physical strain on you.

M-Series Stretcher Stryker's M-Series Stretcher's BackSmart design features keep you moving quickly, safely and with significantly less physical strain to improve caregiving and protect your back.

Gynnie® OB/GYN Stretcher The multipurpose Gynnie OB/GYN stretcher is perfect for triage and observation. Its versatile design delivers the trademark durability of a Stryker stretcher with integrated OB/GYN features.
